Board Meeting 7:30 am

The students in Lake Ontario celebrated Groundhog Day on Feb. 2nd. The students made hats and watched videos to learn about groundhogs. They also made a graph on our door to predict whether or not the groundhog would see his shadow.

Friday was the 100th day of school. To celebrate this special day, the students made hats and badges to wear. They also hunted for 100 Hershey kisses that were hidden around the room. Each kiss had a number on the bottom. The students placed all of the kisses in the correct

place on a large hundreds chart. Then the students were able to each take home 10 kisses. All of the students had fun on our very special day. I will post pictures of both events on our Facebook page.

Don't forget that Re-enrollment begins on February 17th. You have until March 3rd to return your child's enrollment papers in to the office. Please turn in these papers as soon as possible. Thank you for your help with this important matter.

Academics

This month, many of the students in Lake Ontario are working on addition and subtraction. You can practice these important skills with your child at home by using pennies, buttons or other small objects. Have your child solve problems by using these "counters".

Also don't forget to read with your child each night. Have your child pick one or two sight words to read as he/she finds them on a page. This is a great way to spend time with your child and also may help to improve his/her reading abilities.
