

Lake Superior January News

Superior Scientists

Our students have been learning about a variety of topics in Science and Writing. Students have come to the realization that writing just does not mean a special writing time or during Language Art time. They have learned that writing is in Science too. Students have learned about Matter. They have done many observations about snow and how it changes properties (solid, liquid, gas). Students have had to explore their senses and document their findings. We are still observing our snow to see what happens next.

Students have also researched landforms. They have discovered many different types of landforms and have determined their characteristics. Our classroom gathered facts from a variety of resources : textbooks, video, google images, and You-Tube. They then compiled their facts and discussed each landform. To complete their study students worked in groups and created a model of the different landforms. Come down to our end of the hall and check out our creations!

February Field Trip

Our next field trip is February 24 We will be taking a trip with Lake Ontario to Monroe Community College's Lazy Boy Center to view *Bluesapalooza*. We will need volunteer chaperones for our trip. We will be leaving at 9:00 a.m. and will be returning by 11:30.a.m. Seating is limited. Chaperones who return a completed field trip slip and have paid for their seating will be chosen first. More information will be coming soon. Keep a look out!

Dates to Remember:

1/21 Jeans for \$1,
Family Groups 1:30-
2:45 PM, Science Club 4
-8 Grades 3:15-4:30 PM

1/22 End of 2nd Quarter

1/23 No School Records
Day

1/27 Jeans for Cards

1/28 Science Club 4-8
Grades 3:15-4:30 PM

1/29 Principal's Breakfast 7:30

2/1 K-4 Grade Night Activity 6-7:30 PM

2/6 5-8 Grade Night Activity 6-8 PM

2/10 Board Meeting
7:45 AM PTT Meeting
6:00 PM

2/11 Count Day & Spirit
Day

2/12 Birthday Bash
